

Gamepad Modes

Name	Action Class	Number
Basic	Legacy Actions (i.e ADS)	1
Tactical	Clever Actions (i.e spotting)	2
Cosmetic	Passive Actions (i.e inspect)	3

TIP: Know your modes. It is crucial that you know which actions are in which modes and the gamepad mode numbers so you don't mistakenly do something like accidentally inspect your gun, then end up dead less than 10 seconds later.

For the actions of CrossWar GS, see *Gamepad Actions*

Mode Modifiers

Button	Action
D Pad Up	Goes to next mode
D Pad Down	Goes To Previous Mode

TIP: Know the action you want to perform and its corresponding before pushing **ANY** of these buttons. Assuming the action's mode before knowing what it is can cause your KDR to drop because of lost gunfights due to input mistakes.
