

Character Stats		Character Stats (cont)		Level 0 PCs (cont)	
Strength	For Melee attacks and Melee dmg. A successful Melee hit ALWAYS does at least 1 pt of dmg		You can permanently burn luck on a 1:1 basis to boost a die roll	+0 to all attacks and saves (modded by applicable stats)	1d4 crit die on Crit Table
Agility	Effects AC, ranged attacking, initiative, dual-wielding, and REFLEX saves		You can roll vs Luck for certain special feats, Judge must agree to you using it that way	Level 0's who start with a specific weapon also are proficient in that weapon	Ignore the -1d attack penalty for using weapons they are not familiar with, as they pretty much suck in general
Stamina	Effects HP and FORT saves. You always earn at least 1HP per level, no matter what your STA stat is. If STA 5 or less, you always take double dmg from poison and disease		Luck can be regained over time, especially if you do stuff your deity likes	Alignment - Law, Neutrality, Chaos	
Personality	A very important stat for PCs, as they are trying to be popular TV personalities. Not a dump stat!!! Messengers and Blaster use to cast spells, Jammers use to boost the crowd. If you're gonna Grandstand, you'll need this	Saving Throws	- all level 0 PCs start with +0 to all saves but do get the STAT mod bonuses to the save	Misc. Starting PC Notes	
Intelligence	Perception, discern info, etc. If INT is 7 or less, you can only speak one language, INT = or < 5 means you're utterly illiterate		FORTITUDE - boosted by STAMINA, use vs physical threats	Birth Augur	See page 15
Luck	Favor of the gods!		REFLEX - boosted by AGILITY, use for reaction--based situations	Non Humans advance as follows	Dwarves advance as such. p 52 or specialist dwarf mechanics
	Applies to Birth Augur, and what you apply your Luck to	Languages	Everyone starts with English		Elves advance as specialist elf tricksters, p 46
	Your LUCK MOD never changes, even if you burn/lose some luck		For every point of INT mod, you get one more language as appropriate		Gnomes advance as gnomes p. 55
	Luck also effects rolls like crits, fumbles, etc.		Roll 3D6 down the line for all of these. No wimping out!		Half elves advance as half-elves p. 58
		Level 0 PCs			Half orcs advance as half-orcs p. 61 or specialist half orc slayers p 58
		1d4 HP modded by STA	0 XP		Halflings advance as specialist halfling rogues p.47
		1 random equipment package p.73	1 random occupation p.16		
		1 weapon and training for it (choose from club, dagger, sling, spear)	Some basic gear/equipment
